July 7, 2023

Patently Enabled July 2023 - What is Enablement?

The purpose of this monthly series is to share simplified patent related information to assist non-patent practitioners in making the best decisions when considering their intellectual property rights.

This month, Emily Ferriter Russo and Richard Brown break down what is enablement, including who is a person of ordinary skill in the art (POSITA), and the burden of overcoming the presumption that a patent has satisfied the enablement requirement.

For any comments, questions, or other inquiries, please contact registered patent attorneys Emily Ferriter Russo or George Chaclas.
